"Updating a case is time-consuming because I have to search the case list, select a case, go to 'Related Actions,' and find the correct action."
Select a match:

- Use ``a!recordActionField()`` to display relevant related actions in a grid interface.
- Use record-backed read-only grids to display your data and manage paging automatically.
- Use sections, box layouts, or rich text components to structure your interfaces.
- Use stackWhen in ``a!columnsLayout()``
- Use ``a!isNativeMobile()`` to dynamically manage screen width.

"When I navigate to the landing page, the page is slow to load and shows me all cases at once."
Select a match:

- Use ``a!recordActionField()`` to display relevant related actions in a grid interface.
- Use record-backed read-only grids to display your data and manage paging automatically.
- Use sections, box layouts, or rich text components to structure your interfaces.
- Use stackWhen in ``a!columnsLayout()``
- Use ``a!isNativeMobile()`` to dynamically manage screen width.

"When I access the application on my mobile device, the summary page is difficult to read as the columns become too narrow."
Select a match:

- Use ``a!recordActionField()`` to display relevant related actions in a grid interface.
- Use record-backed read-only grids to display your data and manage paging automatically.
- Use sections, box layouts, or rich text components to structure your interfaces.
- Use stackWhen in ``a!columnsLayout()``
- Use ``a!isNativeMobile()`` to dynamically manage screen width.
