NEW QUESTION: 20

Which of the following is the correct order of the steps in the process of a company's risk management process? The steps are: 1. Identify the risks, 2. Assess the risks, 3. Develop a risk management plan, 4. Implement the risk management plan, 5. Monitor and review the risk management process.

- A. 1, 2, 3, 4, 5
- B. 2, 1, 3, 4, 5
- C. 1, 3, 2, 4, 5
- D. 1, 4, 2, 3, 5

Answer: C ([LEAVE A REPLY](#))

The correct order of the steps in the process of a company's risk management process is: 1. Identify the risks, 3. Develop a risk management plan, 2. Assess the risks, 4. Implement the risk management plan, 5. Monitor and review the risk management process. This is because the company must first identify the risks before it can develop a plan to manage them. Once the plan is developed, the company can then assess the risks and implement the plan. Finally, the company must monitor and review the process to ensure it is effective.

The company must first identify the risks before it can develop a plan to manage them. Once the plan is developed, the company can then assess the risks and implement the plan. Finally, the company must monitor and review the process to ensure it is effective.

Identify the risks, 3. Develop a risk management plan, 2. Assess the risks, 4. Implement the risk management plan, 5. Monitor and review the risk management process.
