NEW QUESTION: 20

Which of the following is a common cause of a network outage?
A.

A. A power outage at the service provider's data center
B. A misconfigured firewall rule blocking traffic to the destination
C. A network congestion at the service provider's data center
D. A network congestion at the destination's data center.

Which of the following is a common cause of a network outage?

- A. A power outage at the service provider's data center
- B. A misconfigured firewall rule blocking traffic to the destination
- C. A network congestion at the service provider's data center
- D. A network congestion at the destination's data center.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 21

Clark is a network administrator at TechSoft Solutions. He is troubleshooting a network outage. He has confirmed that the network is down and that the network is not responding to ping requests. He has also confirmed that the network is not responding to traceroute requests. He has also confirmed that the network is not responding to telnet requests. He has also confirmed that the network is not responding to ssh requests. He has also confirmed that the network is not responding to ftp requests. He has also confirmed that the network is not responding to http requests. He has also confirmed that the network is not responding to https requests. He has also confirmed that the network is not responding to smtp requests. He has also confirmed that the network is not responding to pop3 requests. He has also confirmed that the network is not responding to imap requests. He has also confirmed that the network is not responding to ldap requests. He has also confirmed that the network is not responding to dns requests. He has also confirmed that the network is not responding to dhcp requests. He has also confirmed that the network is not responding to ntp requests. He has also confirmed that the network is not responding to rdp requests. He has also confirmed that the network is not responding to vnc requests. He has also confirmed that the network is not responding to telnet requests. He has also confirmed that the network is not responding to ssh requests. He has also confirmed that the network is not responding to ftp requests. He has also confirmed that the network is not responding to http requests. He has also confirmed that the network is not responding to https requests. He has also confirmed that the network is not responding to smtp requests. He has also confirmed that the network is not responding to pop3 requests. He has also confirmed that the network is not responding to imap requests. He has also confirmed that the network is not responding to ldap requests. He has also confirmed that the network is not responding to dns requests. He has also confirmed that the network is not responding to dhcp requests. He has also confirmed that the network is not responding to ntp requests. He has also confirmed that the network is not responding to rdp requests. He has also confirmed that the network is not responding to vnc requests.

Which of the following is a common cause of a network outage?
A.

- A. A power outage at the service provider's data center
- B. A misconfigured firewall rule blocking traffic to the destination
- C. netstat-ab
- D. W

Answer: D ([LEAVE A REPLY](#))
