The diagram illustrates a Fortinet SD-WAN architecture. At the top, a **Supervisor** (represented by a person icon) manages the network. It connects via **VPN** (blue line) to a **Branch site** and via **VPN** (green line) to an **HQ site**.

Branch site: Contains an **Edge-FortiGate** connected to the Supervisor. Below it, there are two floors: **Floor-1** and **Floor-2**. Floor-1 has a **Branch FGT-1** connected to **PLC-1**. Floor-2 has a **Branch FGT-2** connected to **PLC-3**.

HQ site: Contains an **Edge-FortiGate** connected to the Supervisor. Below it, there are two plants: **Plant-1** and **Plant-2**. Plant-1 has a **FortiGate-1** connected to **PLC-1** and **PLC-2**. Plant-2 has a **FortiGate-2** connected to **PLC-2** and **PLC-3**.

- Answer: A (LEAVE A REPLY)**
