**NEW QUESTION: 9**

Which of the following is a key component of a risk register?

- A. Risk rating
- B. Risk description
- C. Risk owner
- D. Risk mitigation

Answer: ([SHOW ANSWER](#))

□□

A risk register is a document that records the organization's risks, the likelihood of those risks occurring, and the potential impact of those risks. It is a key component of a risk management framework. The risk register typically includes the following information: risk description, risk rating, risk owner, risk mitigation, and risk monitoring. The risk register is used to track and manage risks throughout the organization's lifecycle.

**NEW QUESTION: 10**

Which of the following is a key component of a Business Continuity Plan (BCP)?

- A. Risk assessment
- B. Risk mitigation
- C. BIA
- D. Risk monitoring

Answer: ([SHOW ANSWER](#))

A Business Continuity Plan (BCP) is a document that outlines the organization's strategy for maintaining operations in the event of a disaster. It is a key component of a risk management framework. The BCP typically includes the following information: risk assessment, risk mitigation, BIA, and risk monitoring. The BCP is used to track and manage risks throughout the organization's lifecycle.

\* Risk assessment: Risk assessment is the process of identifying and evaluating the organization's risks. It is a key component of a risk management framework. Risk assessment typically includes the following steps: risk identification, risk analysis, and risk evaluation.

Risk mitigation: Risk mitigation is the process of taking steps to reduce the likelihood of a risk occurring or the potential impact of that risk. It is a key component of a risk management framework. Risk mitigation typically includes the following steps: risk identification, risk analysis, and risk evaluation.

\* BIA: BIA (Business Impact Analysis) is the process of identifying and evaluating the organization's critical business functions and the potential impact of a disaster on those functions. It is a key component of a risk management framework. BIA typically includes the following steps: risk identification, risk analysis, and risk evaluation.

\* BIA: BIA (Business Impact Analysis) is the process of identifying and evaluating the organization's critical business functions and the potential impact of a disaster on those functions. It is a key component of a risk management framework. BIA typically includes the following steps: risk identification, risk analysis, and risk evaluation. BIA is used to track and manage risks throughout the organization's lifecycle.

\* **BCP:** Business Continuity Plan BIA Business Impact Analysis. BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident.

BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident.

BCP:

\* DRI (2023), p. 6:

BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident.

\* ISO 22301:2019, 8.4 - BCP. BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident.

**NEW QUESTION: 11**

BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident.

A.

B.

Answer: A ([LEAVE A REPLY](#))

BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident. BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident. BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident. BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident. BCP is a set of policies and procedures that enable an organization to maintain or resume its operations in the event of a disaster or other disruptive incident.
