- D. □□□ □□□□ □□□ □□ □□ □□

Answer: ([SHOW ANSWER](#))

GitHub Copilot is a free AI-powered code completion tool that helps you write code faster and more accurately. It's available for free to all GitHub users, and it's easy to use. Just open a code editor, and Copilot will suggest code snippets as you type. You can accept the suggestion or ignore it. Copilot is trained on a large dataset of code, so it can suggest code for many different languages and frameworks. It's a great tool for developers who want to improve their productivity and reduce the time it takes to write code.
