NEW QUESTION: 4

Which two HPE GreenLake Gen10 Plus components are included in the HPE GreenLake for Block Storage solution? (Choose two.)

Which two components are included in the HPE GreenLake for Block Storage solution? (Choose two.)

- A. HPE GreenLake for Block Storage
- B. HPE GreenLake ID
- C. HPE GreenLake for Block Storage
- D. HPE GreenLake ID
- E. HPE GreenLake for Block Storage

Answer: C,E ([LEAVE A REPLY](#))

The HPE GreenLake for Block Storage solution includes the HPE GreenLake Central and HPE GreenLake for Block Storage components. The HPE GreenLake for Block Storage component is responsible for managing the storage resources, while the HPE GreenLake Central component is responsible for managing the overall GreenLake environment. The HPE GreenLake for Block Storage component is also responsible for managing the storage resources, while the HPE GreenLake Central component is responsible for managing the overall GreenLake environment. The HPE GreenLake for Block Storage component is also responsible for managing the storage resources, while the HPE GreenLake Central component is responsible for managing the overall GreenLake environment.

NEW QUESTION: 5

Which two components are included in the HPE GreenLake for Block Storage solution? (Choose two.)

- A. HPE GreenLake for Block Storage
- B. HPE GreenLake ID
- C. HPE GreenLake for Block Storage
- D. HPE GreenLake ID
- E. HPE GreenLake for Block Storage

Answer: A,D ([LEAVE A REPLY](#))

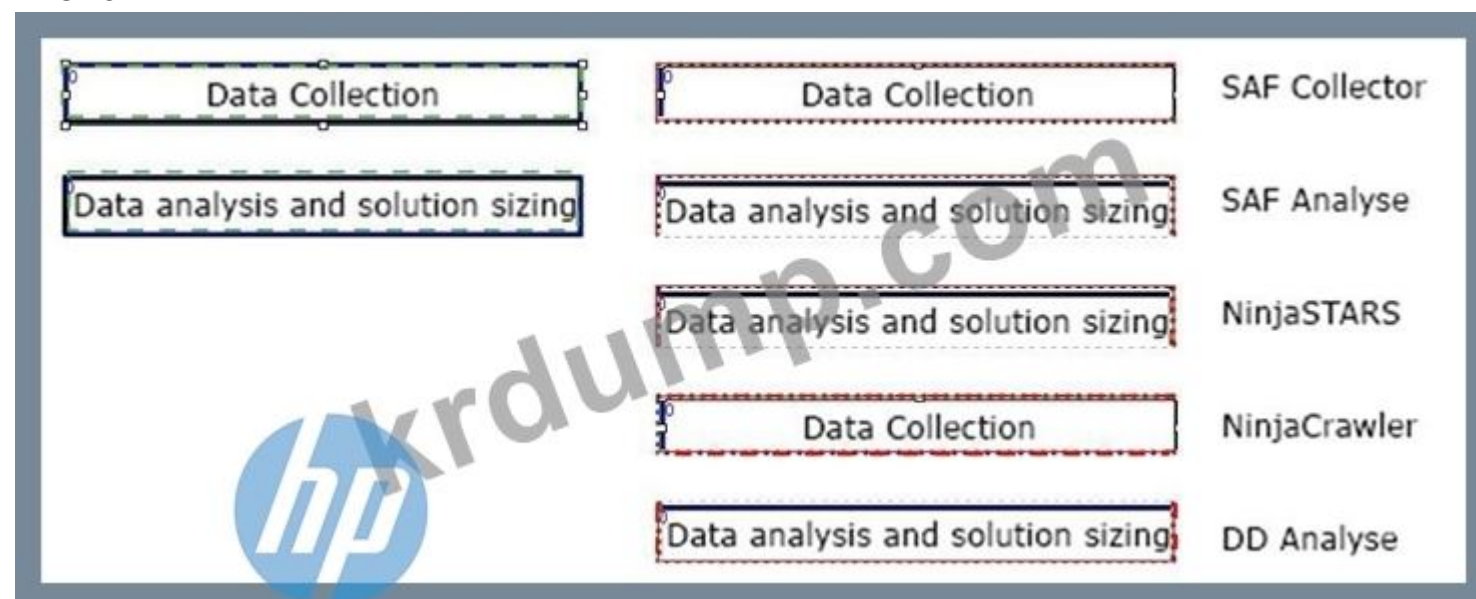

The HPE GreenLake for Block Storage solution includes the HPE GreenLake Central and HPE GreenLake for Block Storage components. The HPE GreenLake for Block Storage component is responsible for managing the storage resources, while the HPE GreenLake Central component is responsible for managing the overall GreenLake environment. The HPE GreenLake for Block Storage component is also responsible for managing the storage resources, while the HPE GreenLake Central component is responsible for managing the overall GreenLake environment. The HPE GreenLake for Block Storage component is also responsible for managing the storage resources, while the HPE GreenLake Central component is responsible for managing the overall GreenLake environment.

Answer: D (LEAVE A REPLY)

HPE GreenLake for database is a cloud-native database solution that allows you to run your database workloads on HPE GreenLake. HPE GreenLake for database is available for SQL Server, Oracle, EDB Postgres, and SAP HANA. HPE GreenLake for database is a fully managed, elastic, and scalable database solution that allows you to run your database workloads on HPE GreenLake. HPE GreenLake for database is a cloud-native database solution that allows you to run your database workloads on HPE GreenLake.
