GDPR requires that data controllers provide information to data subjects in a concise, transparent, intelligible and easily accessible form, using clear and plain language. This information should be provided in a readily accessible and understandable format, and should be provided in a concise, transparent, intelligible and easily accessible form, using clear and plain language.

In a recent decision, the European Data Protection Board (EDPB) issued guidance on the requirements for data controllers to provide information to data subjects in a concise, transparent, intelligible and easily accessible form, using clear and plain language. The EDPB stated that data controllers should use plain language and avoid legalistic and technical terms. The EDPB also stated that data controllers should use a clear and plain language that is understandable by the data subject. Deidre Hoffman, a data protection expert, stated that "data controllers should use plain language and avoid legalistic and technical terms. The EDPB also stated that data controllers should use a clear and plain language that is understandable by the data subject."

- A. Data controllers should use plain language and avoid legalistic and technical terms.
- B. Data controllers should use a clear and plain language that is understandable by the data subject.
- C. Data controllers should use a clear and plain language that is understandable by the data subject, and should also use a clear and plain language that is understandable by the data subject.
- D. Data controllers should use a clear and plain language that is understandable by the data subject, and should also use a clear and plain language that is understandable by the data subject.
