

NEW QUESTION: 3

ADatum Corporation

ADatum Corporation has 3,000 employees.

ADatum has four offices.

Location	Type
Calgary	Main office
San Diego	Branch office
New York	Branch office
Edmonton	Field site

ADatum has a 1Gbps network connection between the main office and the branch offices.

ADatum has a 100Mbps network connection between the branch offices and the field site.

ADatum has four offices.

- IT

- HR

- Finance

Microsoft 365 E5 licenses

ADatum has Microsoft Teams licenses for all employees. Microsoft 365 E5 licenses are

assigned to all employees. Microsoft 365 E5 licenses are also assigned to all employees.

ADatum has Microsoft Teams licenses for all employees.

Azure AD is configured for all employees.

Teams is configured for all employees.

- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.
- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.
- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.
- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.

Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.

- A. SharePoint retention policy.
- B. Azure Active Directory.
- C. Teams retention policy.
- D. Teams retention policy (DLP).
- E. OneDrive retention policy.

Answer: A (LEAVE A REPLY)

Files shared in Team chats are stored in Sharepoint, therefore that needs to have a retention policy set to that duration.

NEW QUESTION: 4

- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.
- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.
- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.
- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.
- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.
- Files shared in Teams chats are stored in SharePoint, therefore that needs to have a retention policy set to that duration.

Microsoft Teams can be created from which of the following Microsoft 365 Groups?

- A. Group1
- B. Group2
- C. Group3
- D. Group4

Answer: (SHOW ANSWER)

Teams can only be created from Microsoft 365 Groups.

The multiple choice answers are a little tricky. The third group in the list provided is a Microsoft 365 Group. However, the fourth letter in the multiple choice (D) shows the third group in the list.

NEW QUESTION: 16

Answer: C (LEAVE A REPLY)

Data loss prevention is a sensitive information policy that controls data like financial records, confidential medical information, and social security numbers. To protect such confidential data, implementing a preview mode is the way to protect it from users sharing inappropriately inside or outside the organization.

Option A is incorrect: Public mode is the phase available for all the customers across the globe, and they can use it when it is publicly available.

Option B is incorrect: Private is the mode of a feature released only for selective customers to check the reliability and consistency of features.

Option C is correct: Data Loss Prevention (DLP) is a default policy for Microsoft Teams. currently, it supports preview mode for customers to check its reliability and performance.

Option D is incorrect: This is the stage of features that is mostly available for Team's collaboration office by Microsoft Teams including video, audio conferencing, and video, audio calls, and real-time messaging.

				Sep 27, 2019, 9:45 AM CDT	6 days ago	17 Participants	03:25:28	Conference	Microsoft Teams	Good

Microsoft Office 365

On October 2, all participants experienced good quality audio during the conference call.
 On October 2, some participants on the conference call were external users.

Answer Area

Statements	Yes	No
On October 2, all participants experienced good quality audio during the conference call.	<input type="radio"/>	<input type="radio"/>
On October 2, some participants on the conference call were external users.	<input type="radio"/>	<input type="radio"/>
The organizer of the October 2 meeting is a user at the company.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statements

	Yes	No
On October 2, all participants experienced good quality audio during the conference call.	<input type="radio"/>	<input checked="" type="radio"/>
On October 2, some participants on the conference call were external users.	<input checked="" type="radio"/>	<input type="radio"/>
The organizer of the October 2 meeting is a user at the company.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

1. NO : the system only displays 7 participants so the audio quality was good
2. YES : the second capture indicates 10 participants but the meeting had 12 so surely the 2 others are unknown to the system and therefore outside the organization.
3. NO : on the capture, it shows unknown. If it is a user of the company it will be known to the system.

NEW QUESTION: 44

Q: A user reports that they cannot access Microsoft Teams. The user is using a Windows 10 device and has the latest version of the Teams application installed. The user is also using a corporate network and has access to the internet. The user is unable to join any meetings and receives an error message that says "Unable to connect to the meeting." The user has tried restarting the Teams application and their computer, but the problem persists. What should the user do to resolve this issue?

A: The user should check their network connection and ensure they have access to the internet. They should also verify that their Windows 10 device is up to date and that the Teams application is installed correctly. If the problem still persists, the user should contact their IT support team for further assistance.

□□□ IT □□□□□ □□□□□ Skype□ □□ Skype□ □□ □□□□ □□□. □□□ □□ □□ □□□ □ □□□□?

- A. □□□ □□
- B. □□ □□□ □□□□ □□□□ □□□□□.
- C. □□□□ □□ □□ □□
- D. □□□□ □□ □□

Answer: B ([LEAVE A REPLY](#))

At the initial stage of planning and implementing the service of Teams and skype for business, you must access the requirements and then build the solution that will fit into all requirements and give us a fine-grain solution.

Option A is incorrect: This is incorrect because building infrastructure without accessing it for the customized solution will not help.

Option B is correct: Implementing a strong solution always needs to look from scratch to fulfill the requirements.

Option C is incorrect: Planning the network is an initial phase where we need to check all the requirements and feasibility of whether this amount of bandwidth and network would be good enough for teams and relevant services to run seamlessly.

Option D is incorrect: This comes into the picture when we are discussing what type of devices will be provided to users and what is the exact configuration required to use Teams and other M365 applications.

NEW QUESTION: 61

Organization-wide Teams provide an automatic way for everyone in an organization to join and be a part of a single and collaborative team.

- A. 7
- B. 3
- C. 9
- D. 5

Answer: D (LEAVE A REPLY)

Organization-wide Teams provide an automatic way for everyone in an organization to join and be a part of a single and collaborative team.

Option D is correct because as per the Microsoft limit for each tenant on organization-wide Teams is 5. If administrators cannot see the option to create org-wide Teams, it is considered to limit over.

Options A, B, and C are incorrect because Organization-wide Teams cannot be 7,3, or 9 as per the Microsoft Teams limit.

It was never specified that only a small number of people inside the Sales team can see the Customer Reviews. It was implied that everyone inside the Sales team can look at customer reviews. Hence it should be standard channel

NEW QUESTION: 65

□□□ □□

□□ □□ □□□ □□□□ □□□ Microsoft 365 □□□ □□□□.

Name	Role
Admin1	Global Administrator
Admin2	Teams Administrator
Admin3	Teams communication admin

□□ □□□□ □□ □□ □□□ Microsoft Teams □□ □□□□ □□□□.

Answer Area

Additional org-wide teams:

	▼
1	
3	
6	

Users:

	▼
Admin1 only	
Admin2 only	
Admin3 only	
Admin1 and Admin2 only	
Admin2 and Admin3 only	
Admin1, Admin2, and Admin3	

Explanation:

Only global admins can create org-wide teams and currently an org-wide team is limited to organizations with no more than 10,000 users. There's also a limit of five org-wide teams per tenant. If these requirements are met, global admins will see Org-wide as an option when they select to build a team From scratch when creating a team.

NEW QUESTION: 69

Which Microsoft 365 tool can be used to test network connectivity between a Microsoft Teams client and a Microsoft Teams server?

- A. Microsoft Teams Network Testing Companion
- B. PowerShell Set-CsQoEConfiguration cmdlet
- C. Microsoft Teams Network Planner
- D. Microsoft Teams Network Testing Companion

Answer: B (LEAVE A REPLY)

<https://learn.microsoft.com/en-us/microsoftteams/cqd-upload-tenant-building-data>

NEW QUESTION: 70

Which Microsoft 365 tool can be used to test network connectivity between a Microsoft Teams client and a Microsoft Teams server?

- A. Microsoft 365 Network Testing Companion
- B. Azure Active Directory Expiration Policy
- C. Microsoft 365 Office 365 Network Planner
- D. Microsoft Teams Network Testing Companion

Answer: B (LEAVE A REPLY)

An administrator will have to enable the expiration policy and set the properties for it to take effect. To enable it, go to Azure Active Directory > Groups > Expiration.

<https://docs.microsoft.com/en-US/microsoftteams/network-planner>

NEW QUESTION: 71

Which Microsoft 365 tool can be used to test network connectivity between a Microsoft Teams client and a Microsoft Teams server?

- A. Set-AzureADUserLicense, Set-CSUser
- B. Grant-CsOnlineVoiceRoutingPolicy, Set-CsOnlineVoiceUser
- C. Set-AzureADUser, Grant-CsOnlineVoiceRoutingPolicy

D. `Set-CsOnlineVoiceUser -User Set-CsUser -User`

Answer: D (LEAVE A REPLY)

A Microsoft Calling plan requires an additional license. The three cmdlets in this answer assign a phone system license to the user, assigns a phone number to the user and enables the user for Enterprise Voice.

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/calling-plans-for-office-365>

<https://docs.microsoft.com/en-us/microsoftteams/set-up-calling-plans>

NEW QUESTION: 72

Which tool can be used to analyze the network requirements for Microsoft Teams?

A. Microsoft Teams Network Assessment Tool

B. Network Planner

C. Third-party tools

D. NetworkMiner

Answer: (SHOW ANSWER)

Analyzing the network via a Network planner is the step where one would be able to identify the actual requirement and can make necessary changes.

Option A is incorrect: Microsoft Teams Network Assessment Tool provides the ability to perform a simple test of network performance and network connectivity to determine how well the network would perform for Microsoft Teams calls.

Option B is correct: Network Planner is a new tool available in the Teams admin center. In a few steps, the Network Planner can help you determine and identify network requirements for connecting Microsoft Teams users across your organization.

Option C is incorrect: Third-party tools can be used, but it's an additional investment for the organization.

Option D is incorrect: This device is used for field network testing. It cannot help us identify actual network requirements for Microsoft Teams.

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/prepare-network>

NEW QUESTION: 73

Which command can be used to assign a license to a user?

A. `Set-CsUser -User Set-CsOnlineVoiceUser -User`

B. `Set-CsUser -User Set-CsOnlineVoiceUser -User`

C. `Set-CsUser -User Set-CsOnlineVoiceUser -User`

D. `Set-CsUser -User Set-CsOnlineVoiceUser -User`

□□□ □□□ □□□□□?

A. □

B. □□□

Answer: B ([LEAVE A REPLY](#))

Private chats are stored in user mailboxes, not on OneDrive.

NEW QUESTION: 74

□□ □□ □□□ □□□ □□ □□□□, □□ □□□ □□□ □□□□□?

A. □□□□ □□□ □ □ □□□ □□□.

B. □□□ □□□□□ □□

C. □□□ □□□□□ □□□□□

D. □□ □ □□□ □□□□□

Answer: A ([LEAVE A REPLY](#))

This policy allows administrators to implement communication barriers between two different departments or groups. For example, Finance department users should not chat with the HR department. In that case, this policy will be implemented, and communication will be prevented.

Option A is correct: This will be applied when people from two different departments should not chat. Then this will be the perfect solution to implement.

Option B is incorrect because one-way communication cannot be prevented via this policy.

Option C is incorrect: This will not be applied because we don't want to prevent communication between two departments.

Option D is incorrect because the information barrier policy will not prevent search and discovery in Teams.

NEW QUESTION: 82

□□□ □□
 □□□ □□□□□ Microsoft Office 365□ □□□□ □□□□.
 □□ □□□□ @adatum.com□□□□ □□□ □□□□□ □□□□□.
 □□□ □□□ □□□ □□□ □□□ □□□ □□□□□. (□□□ □□□ □□ □□□□□.) □□
 □□ □□□ □□ □□ □□□ □□□□□. (□□ □□ □□ □□□□□.)

00 0 000 00, 000 00000 '0'0 00000. 000 000 '000'0 00000.
 00: 00 000 10000.

Answer Area		Microsoft	
Statements		Yes	No
Users at your company can share their screen with guest users during meetings.		<input type="radio"/>	<input type="radio"/>
Users at your company can add users from a company that uses an email domain of fabrikam.com to teams.		<input type="radio"/>	<input type="radio"/>
Users at your company can add users from a company that uses an email domain of contoso.com to teams.		<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area		Microsoft	
Statements		Yes	No
Users at your company can share their screen with guest users during meetings.		<input checked="" type="radio"/>	<input type="radio"/>
Users at your company can add users from a company that uses an email domain of fabrikam.com to teams.		<input type="radio"/>	<input checked="" type="radio"/>
Users at your company can add users from a company that uses an email domain of contoso.com to teams.		<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Users of the company can share the screen but a guest can't share the screen. The first screenshot just disabled screen sharing mode for guests. The third screenshot are the meeting policy for the companies users.

NEW QUESTION: 83

000 00000 Teams 0 0000 0000.
 00 00000 Microsoft 365 E3 00000 00000.
 Teams 00 00 00(1B) 0 000 0 000 00 000000 00000 000.
 000 00 0 00 0000 0 000 000000? 000 00 000 00000 000000.
 00: 00 000 10000.

- B. Microsoft 365
- C. Microsoft Teams
- D. Azure Active Directory

Answer: (SHOW ANSWER)

Disable the Allow guests to delete channels option in the Teams client. Go to the team name and select More options > Manage team. Then select Settings > Guest permissions.

Note:

There are several versions of this question in the exam. The question has two possible correct answers:

1. the Microsoft Teams client
2. the Microsoft Teams PowerShell module

Other incorrect answer options you may see on the exam include the following:

- the Microsoft 365 admin center
- the Azure Active Directory for Windows PowerShell

Reference:

 1000 1000 1000000?

- A. 100
- B. 1000

Answer: B (LEAVE A REPLY)

Guest access in Teams allows people outside you organization to access teams and channels.
 When you turn on Guest Access, you can turn on or off features guests users can or can't use.
 Reference:

<https://docs.microsoft.com/en-us/microsoftteams/set-up-guests>

NEW QUESTION: 89

1000 100

Teams 10 100000 100 100 1000 100000 100000 Microsoft 365 1000 100000.

Name	Team	Role
User1	Sales	Owner
User2	Finance	Member
User3	Procurement	Member

100 1000 1000 1000 100 100000.

Name	Setting	Value
Global (Org-wide default)	Owners can delete sent messages	Off
	Delete sent messages	On
	Edit sent messages	On
Finances	Owners can delete sent messages	On
	Delete sent messages	Off
	Edit sent messages	Off
Procurements	Owners can delete sent messages	Off
	Delete sent messages	Off
	Edit sent messages	Off

1000 1000 100 100 100 100000.

Policy	Assigned to
Global (Org-wide default)	All users
Finances	Finance
Procurements	Procurement

Which of the following statements are true? Select all that apply.

Answer Area

Statements	Yes	No
User1 can delete sent messages.	<input type="radio"/>	<input type="radio"/>
User2 can delete sent messages.	<input type="radio"/>	<input type="radio"/>
User3 cannot edit sent messages.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statements	Yes	No
User1 can delete sent messages.	<input type="radio"/>	<input checked="" type="radio"/>
User2 can delete sent messages.	<input type="radio"/>	<input checked="" type="radio"/>
User3 cannot edit sent messages.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

User1 can delete sent messages: No, owners cannot delete sent chats in the Org-Wide policy.

User2 can delete sent messages: No, members cannot delete sent chats in Finance policy.

User3 cannot edit sent messages: Yes, members cannot edit sent chats in Procurement policy.

NEW QUESTION: 90

Which of the following statements are true? Select all that apply.

Microsoft 365 E3 includes all the features of Microsoft 365 E1 and E5, plus the ability to use the Microsoft 365 E3 license to create up to 100,000 user accounts.

Microsoft 365 E3 includes all the features of Microsoft 365 E1 and E5, plus the ability to use the Microsoft 365 E3 license to create up to 100,000 user accounts.

Microsoft 365 E3 includes all the features of Microsoft 365 E1 and E5, plus the ability to use the Microsoft 365 E3 license to create up to 100,000 user accounts.

Microsoft 365 E3 includes all the features of Microsoft 365 E1 and E5, plus the ability to use the Microsoft 365 E3 license to create up to 100,000 user accounts.

- A. Microsoft 365 E3 includes all the features of Microsoft 365 E1 and E5, plus the ability to use the Microsoft 365 E3 license to create up to 100,000 user accounts.
- B. Microsoft 365 E3 includes all the features of Microsoft 365 E1 and E5, plus the ability to use the Microsoft 365 E3 license to create up to 100,000 user accounts.
- C. Microsoft 365 E3 includes all the features of Microsoft 365 E1 and E5, plus the ability to use the Microsoft 365 E3 license to create up to 100,000 user accounts.
- D. Microsoft 365 E3 includes all the features of Microsoft 365 E1 and E5, plus the ability to use the Microsoft 365 E3 license to create up to 100,000 user accounts.

- Microsoft 365 E27 license includes Microsoft Teams, OneDrive, and SharePoint.

- Microsoft 365 E28 license includes Microsoft Teams, OneDrive, and SharePoint.

- Microsoft 365 E29 license includes Microsoft Teams, OneDrive, and SharePoint.

- Microsoft 365 E30 license includes Microsoft Teams, OneDrive, and SharePoint.

- A. OneDrive
- B. Microsoft Teams
- C. SharePoint
- D. SharePoint
- E. OneDrive

Answer: (SHOW ANSWER)

A - when user uploads/shares a file to/in personal chat with someone that file automatically appears under the sharing user OneDrive Account in "Teams Chat Files" folder with appropriate rights automatically assigned to the user to which that file is shared.

D - all Teams channels (whether private or public) files are saved in SharePoint.

NEW QUESTION: 98

Which of the following Microsoft 365 licenses includes Microsoft Teams, OneDrive, and SharePoint?

Microsoft Skype for Business Online Microsoft Teams

Windows 10 100 50 50

50 50

50

50

Microsoft Teams Skype

Microsoft Teams

Microsoft?

A. Microsoft Teams Skype Teams

B. GPO() GPO

C. Microsoft Teams Microsoft Teams

D. Microsoft Intune Microsoft Teams

Answer: D (LEAVE A REPLY)

Intune is correct because it is part of Microsoft 365 E5 license and rolls out to all devices.

□□□ IT □□□□□, □□□□□ Microsoft Teams□ □□□ □ □□□ □□ □□□ □□□ □□
□ □□□ □□□□□. □□□ □□ □□□□□□□□□?

- A. Teams□ □□ □□ □□□ (TCP □□ 80 □ 443, UDP □□ 3478~3481)□□□.
- B. URL □ IP □□□ □□ □□□ □□
- C. □□□□ □□ □□ □□
- D. □□□ □□ □□

Answer: B (LEAVE A REPLY)

Microsoft Teams is a service that connects to Microsoft online services. It uses certain ports, IPs, and URLs to provide a seamless experience across the locations.

Option A is incorrect: This can be implemented when you have strict requirements in the organization for allowing and disallowing communication for Teams.

Option B is correct: Whitelisting IPs and URLs is a fine-grain solution because this only allows those ports which are specifically required. Also need to keep the list of ports and ranges up to date because they might change from time to time.

Option C is incorrect: Network requirement is required to evaluate the actual bandwidth and test it on the Microsoft Teams service.

Option D is incorrect: Implementing proxy servers is not recommended by Microsoft because it may hamper user experience on media services.

 □ □□□ □□□□□ Microsoft 365 □□□□ □□□□□□□.

Answer:

Step 1: Go to Microsoft Entra ID > Groups > Expiration.

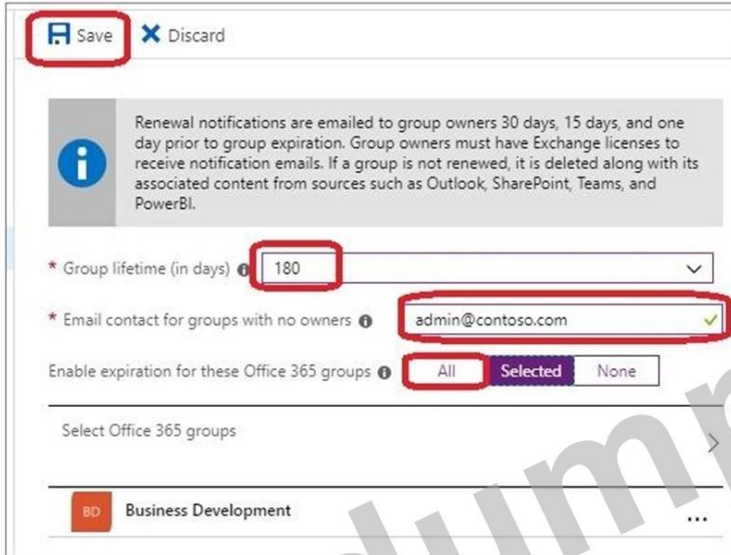

Microsoft 365 group expiration policy

How to set the expiration policy

Expiry is turned off by default. An administrator will have to enable the expiration policy and set the properties for it to take effect. To enable it, go to Microsoft Entra ID > Groups > Expiration. Here you can set the default group lifetime.

Step 2: Change Group lifetime (in days) to: 365

The group lifetime is specified in days and can be set to 180, 365 or to a custom value that you specify. The custom value has to be at least 30 days.

Step 3: Change the Email contact for group with no owners to: adminABCDE123456.onmicrosoft.com

If the group doesn't have an owner, the expiration emails will go to the specified email.

You can set the policy for all of your groups, only selected groups (up to 500), or turn it off completely by selecting None. When You select None all groups which are active and pending for verification will have no expiration date. However, the groups that are already expired aren't impacted.

Note that currently you can't have different policies for different groups.

Step 4: Set Enable expiration for these Office 365 groups to: All

You can set the policy for all of your groups, only selected groups (up to 500), or turn it off completely by selecting None. When You select None all groups which are active and pending for verification will have no expiration date. However, the groups that are already expired aren't impacted.

Note that currently you can't have different policies for different groups.

Step 5: Click Save.

NEW QUESTION: 153

Contoso is a Microsoft Teams tenant. The tenant has a Microsoft Teams group named "Project1" with 20 members. The group is located in the "Project1" group. The group is located in the "Project1" group. The group is located in the "Project1" group.

Name	Role
Admin1	Global Administrator
Admin2	Teams Administrator

The group "Project1" has two members:

Name	Role
User1	Owner
User2	Member

The group "Project1" has two members:

- User1 is the Owner of the group.
- User2 is a Member of the group.

The group "Project1" is located in the "Project1" group. The group is located in the "Project1" group. The group is located in the "Project1" group.

NEW QUESTION: 156

Which of the following is a valid IP address?
A. 192.168.1.1
B. Microsoft Teams 192.168.1.1.1
C. Microsoft Teams 192.168.1.1.1.1
D. Microsoft Teams 192.168.1.1.1.1.1

Answer: A

Use:

The IP address
The device name
The MAC address
The resource account

File format:

CSV
PS1
XML
JSON

Answer:

Use:

- The IP address
- The device name
- The MAC address
- The resource account

File format:

- CSV
- PS1
- XML
- JSON

Explanation:

Complete the following steps to provision a new device.

Sign in to the Teams admin center.

Expand Teams Devices.

Select Provision new device from the Actions tab.

In the Provision new devices window, you can either add the MAC address manually or upload a CSV file.

<https://learn.microsoft.com/en-us/microsoftteams/devices/remote-provision-remote-login#add-a-device-mac-address>

Answer:

Step 1: Create a custom meeting policy

You manage meeting policies in the Microsoft Teams admin center.

1. In the left navigation of the Microsoft Teams admin center, go to Meetings > Meeting policies.

2. Click Add.

Step 2: Under Audio & video select Roaming bandwidth control

Roaming bandwidth control: A new roaming policy to provide specific settings from other policies which need to be rendered dynamically based upon the location of the Teams client. Initially, two settings from the TeamsMeetingPolicy will be included: AllowIPVideo and MediaBitRateKb.

Step 3: Specify location to Miami

Step 4: Set MediaBitRateKb to 1,000 Kbps

Media bit rate (Kbs)

This is a per-user policy. This setting determines the media bit rate for audio, video, and video-based app sharing transmissions in calls and meetings for the user. It's applied to both the uplink and downlink media traversal for users in the call or meeting. This setting gives you granular control over managing bandwidth in your organization. Depending on the meetings scenarios required by users, we recommend having enough bandwidth in place for a good quality experience. The minimum value is 30 Kbps and the maximum value depends on the meeting scenario.

Step 5: 1,000 Kbps

Note: Bandwidth control (March 2021)

Many organizations have limited bandwidth capacity at locations on their network and require the ability to restrict Teams bandwidth consumption at those locations. The new bandwidth control feature will permit Teams Admins to proactively establish network bandwidth consumption for Teams clients at specific network locations – for example, a low bandwidth control limit for remote locations and higher limits for other sites. Bandwidth control capabilities will be available early next quarter.

Roaming bandwidth control is a new capability that allows admins to set dynamic bandwidth policies which are based upon the geographic location of users' Teams clients. This allows admins to set more limited bandwidth controls for when users travel to remote or bandwidth constrained locations, and then relax limitations when they travel to a location with higher bandwidth capacity. Initially two settings from the Teams Meeting Policy will be included - AllowIPVideo, and MediaBitRateKb.

Configuration profiles used to manage settings and features for different Team's devices in the organization, including collaboration bars, Teams displays, Team's phone, and Teams panels.

Option A is incorrect: Device configuration is a stage where the device will be configured as per requirement and will be available for the user.

Option B is incorrect: Once the profile is configured with the required set of features and settings, then it's ready to assign to devices.

Option C is incorrect: Team's devices are utilized for collaboration in an organization.

Option D is correct: It allows us to identify whether to provide features and settings for the devices or can be skipped as per requirements.

Answer:

Teams supports the ability to allow selected users to enable Public Preview features in the desktop and browser clients for an early view of functionality. You'll need to create a new update policy in the Teams admin center and assign it to the people you want to access public preview.

Step 1: In Microsoft Teams admin center select Teams->Update policies

Step 2: Click Add

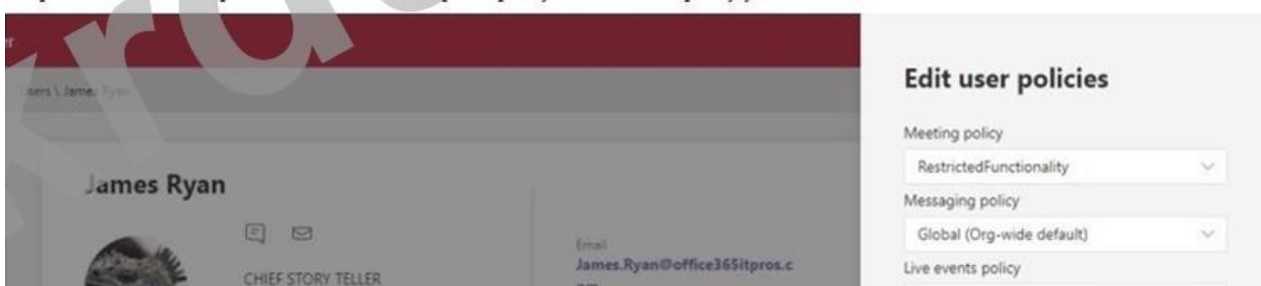

Step 3: Set Show preview features to On, and click Apply.

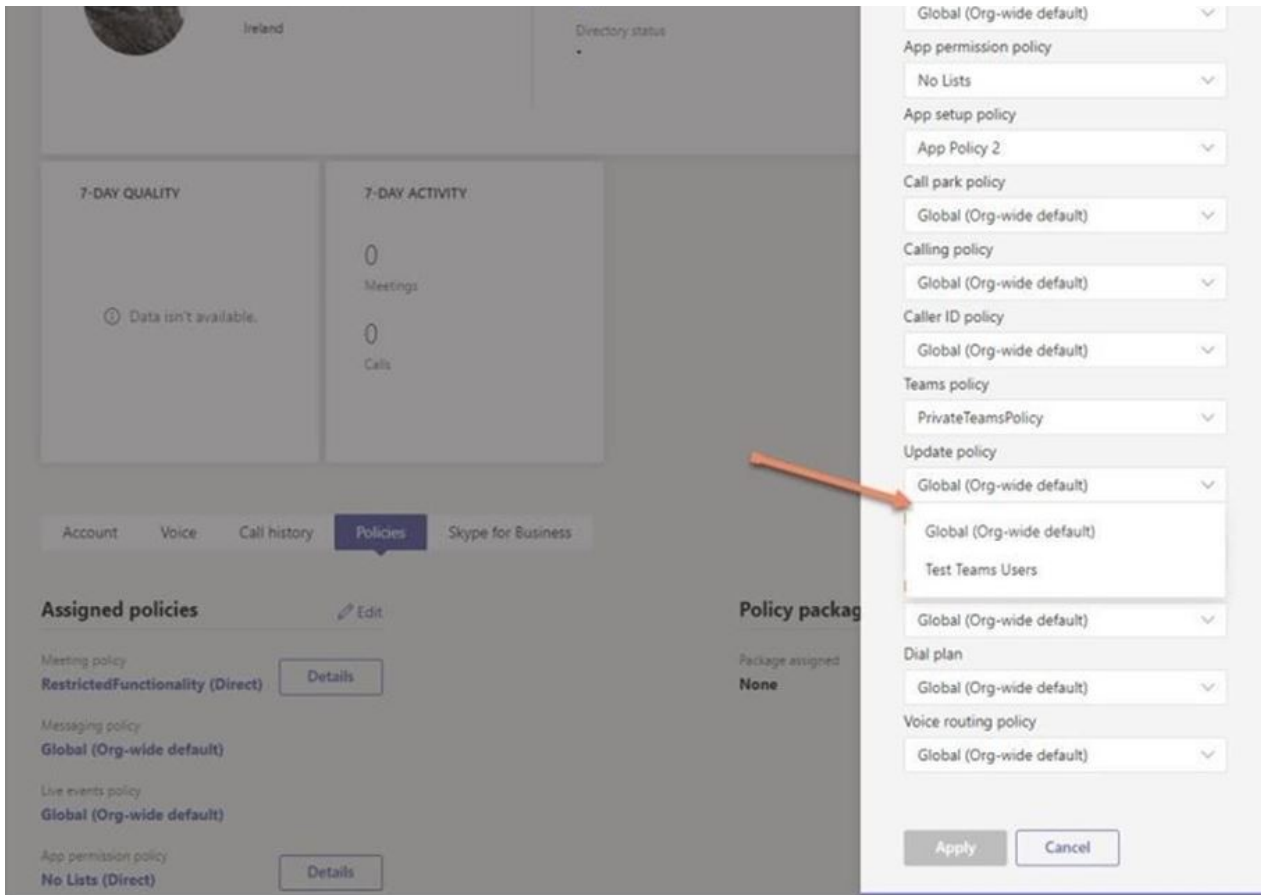

Step 4: In Microsoft Teams admin center select Users, and Adele.

Once the new update policy is saved, it can be assigned to user accounts.

You can do this by editing user accounts through the Teams admin center and editing the set of policies assigned to the account.

Step 5: In the Edit user policies window select Update policy and select the policy you defined.

Answer: ([SHOW ANSWER](#))

Busy on busy during calls (also called "busy options") lets you configure how incoming calls are handled when a user is already in a call or conference or has a call placed on hold. New or incoming calls can be rejected with a busy signal or can be routed accordingly to the user's unanswered settings.

NEW QUESTION: 174

□□□ □□

Microsoft Teams □ □□□□ □□ □□ □□□ □□□□ □□□□ Microsoft 365 □□□ □□□□.

Name	Role
Admin1	Teams Administrator
User1	User
User2	User
User3	User
User4	User
User5	User

□□ □□ □□□ □□ □□□ Sales□□ □□ □□□□.

Name	Privacy	Role	Members
Sales	Private	Owner Member Member Member	User1 User2 User3 User4

□□□□ □□ □□ □□□ □□□ □□□□□.

Name	Type	Owner	Members
Planning	Standard	User1	User2 User3 User4
Budget	Private	User2	User3 User4

□□ □ □□□ □□, □□□ □□□□□ '□' □□□□□□. □□□ □□□ '□□□□' □□□□□□.
□□: □□ □□□ 1□□□□□.

Statements	Yes	No
User1 can see the membership list of the Budgets channel.	<input type="radio"/>	<input type="radio"/>
User2 can add User5 as a member of the Budgets channel.	<input type="radio"/>	<input type="radio"/>
Admin1 can convert Planning into a private channel.	<input type="radio"/>	<input type="radio"/>

Answer:

Statements	Yes	No
User1 can see the membership list of the Budgets channel.	<input type="radio"/>	<input checked="" type="radio"/>
User2 can add User5 as a member of the Budgets channel.	<input type="radio"/>	<input checked="" type="radio"/>
Admin1 can convert Planning into a private channel.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

No = User1 cannot see the membership list because he's not the owner

No = User2 cannot add User5 because User2 doesn't have a role of Teams Administrator

No = Admin1 cannot convert Planning into a private channel because he's not the owner

Actions	Answer Area
Assign the Microsoft Teams Phone Standard - Virtual User license.	
Create and assign an Audio Conferencing policy.	
Purchase Communication Credits.	
Assign a number to a conference bridge.	
Request a service number.	
Assign a number to a resource account.	
Request a user number.	

Answer:

Actions	Answer Area
Assign the Microsoft Teams Phone Standard - Virtual User license.	Purchase Communication Credits.
	Request a service number.
	Assign a number to a conference bridge.
	Create and assign an Audio Conferencing policy.
Assign a number to a resource account.	
Request a user number.	

Explanation:

To provide toll-free conference bridge phone numbers and to support conferencing dial-out to international phone numbers, you must set up Communications Credits for your organization.

Communication credits are required when setting up Audio conferencing:

<https://learn.microsoft.com/en-us/microsoftteams/what-are-communications-credits> Service phone numbers for Calling Plans:

<https://learn.microsoft.com/en-us/microsoftteams/getting-service-phone-numbers> Set up Audio Conferencing for Microsoft Teams:

<https://learn.microsoft.com/en-us/microsoftteams/set-up-audio-conferencing-in-teams#step-7-assign-dial-in-phone-numbers-for-users-who-lead-meetings> Set the phone numbers included on invites in Microsoft Teams:

<https://learn.microsoft.com/en-us/microsoftteams/set-the-phone-numbers-included-on-invites-in-teams#set-or-change-the-default-audio-conferencing-phone-number-for-a-meeting-organizer-or-user-individually>
