MVP Remaining Story

Risk Register

#	Title	Summary	Impact
1	Defect backlog size	Significant number of known defects exist, but not all will be addressed in the MVP	Defects prioritized with product owner and top 10 defects will be addressed. Remaining defects will be prioritized in future initiative.
2	Holiday Impact	Burn for April expected to decrease due to holiday schedule	Expected reduction of 1 story point of burn for sprints 4 through 6. Then return to normal burn.
3	Regulation Changes	Proposed government regulations might be enacted which would cause rework in the project.	Team chose to watch this risk and not take action at this time. Not likely to impact MVP.
4	Team Morale	Our project team feels that their value to the company is tied to the value of the initiative they are working on.	No impact to current velocity or initiative. Will need to monitor.

Thanks,
 Agile Project Lead

Answer: A (LEAVE A REPLY)

The best place to start when forming agile teams is by building a foundational trust and a safe work environment to ensure that all team members have an equal voice and can be heard and considered. This, along with building the agile mindset is the underlying success factor - all other challenges and risks can be mitigated.

Answer: D ([LEAVE A REPLY](#))

As mentioned earlier in this practice guide, the Agile Manifesto values "customer collaboration over contract negotiation." Many project failures stem from breakdowns in the customer - supplier relationship. Projects incur more risk when those involved in the contract take the perspective of winners vs. losers. A collaborative approach is one that pursues a shared-risk-reward relationship, where all sides win.

The team ultimately owns the work and is self-organized. While offering the team member encouragement to meet commitments is a good thing, the most effective way to ensure the team can meet the sprint goal is to be transparent with the team about the other member falling behind in tasks. That way they can figure out a strategy to get things back on track.
