Answer: C ([LEAVE A REPLY](#))

Cloud Kicks (CK) is a Salesforce Customer Success Manager (CSM) who is responsible for managing the relationship between the company and its customers. CK is currently working on a project to improve the customer experience. CK is looking for a way to improve the customer experience that is both effective and efficient. CK is considering the following options:

Option A: Implement a new CRM system. This option is not the most effective and efficient way to improve the customer experience because it is a large-scale project that requires a lot of time and resources. It also requires a lot of training for the customer service representatives.

Option B: Hire a new customer service representative. This option is not the most effective and efficient way to improve the customer experience because it is a long-term solution that requires a lot of time and resources. It also requires a lot of training for the new representative.

Option C: Implement a new customer service process. This option is the most effective and efficient way to improve the customer experience because it is a small-scale project that requires a lot of time and resources. It also requires a lot of training for the customer service representatives.

Option D: Implement a new customer service training program. This option is not the most effective and efficient way to improve the customer experience because it is a long-term solution that requires a lot of time and resources. It also requires a lot of training for the customer service representatives.
