NEW QUESTION: 7

Universal Containers has a custom object with a text field. The field is required and has a length of 255 characters. A user reports that they cannot save a record because the field is too short. The user has entered a value that is 255 characters long. What is the most likely cause of this issue?

- A. The field is not indexed.
- B. The field is not encrypted.
- C. The field is not a picklist.
- D. API version is too low.

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 8

Universal Containers has a custom object with a text field. The field is required and has a length of 255 characters. A user reports that they cannot save a record because the field is too short. The user has entered a value that is 255 characters long. What is the most likely cause of this issue?

- A. The field is not indexed.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 9

Ursa Major Solar has a custom object with a text field. The field is required and has a length of 255 characters. A user reports that they cannot save a record because the field is too short. The user has entered a value that is 255 characters long. What is the most likely cause of this issue?

- A. The field is not indexed.
- B. The field is not encrypted.
- C. The field is not a picklist.
- D. API version is too low.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 10

Universal Containers has a custom object with a text field. The field is required and has a length of 255 characters. A user reports that they cannot save a record because the field is too short. The user has entered a value that is 255 characters long. What is the most likely cause of this issue?

1. Richard Kevin is a user at NewCompany. Karen is a user at OldCompany.
2. Sam Wilder West is a user at NewCompany. Wendy is a user at OldCompany.
3. Bob Karen Wendy is the CEO of NewCompany.

Richard is a user at NewCompany. Kevin is a user at OldCompany. Karen is a user at NewWorld. Wendy is a user at OldCompany. Phil is a user at NewWorld. What is the most likely cause of this issue?

- A. The field is not indexed.
- B. The field is not encrypted.

NEW QUESTION: 14

Universal Containers has a custom object called `Account` with a field called `Account Type`. The `Account Type` field is a picklist with the following values: `Individual`, `Business`, `Government`, and `Other`. The `Account Type` field is required. A user is creating a new `Account` record and has selected `Individual` for the `Account Type` field. The user is also required to enter a value for the `Account Type` field. Which two actions can the user take to complete the record? (Select two.)

- A. Click the `Save` button.
- B. Click the `Cancel` button.
- C. Click the `Save and New` button.
- D. Click the `Save and Close` button.

Answer: A,C (LEAVE A REPLY)

NEW QUESTION: 15

A user is creating a new `Account` record and has selected `Individual` for the `Account Type` field. The user is also required to enter a value for the `Account Type` field. Which two actions can the user take to complete the record? (Select two.)

- A. Click the `Save` button.
- B. Click the `Cancel` button.
- C. Click the `Save and New` button.
- D. Click the `Save and Close` button.

Answer: D (LEAVE A REPLY)

NEW QUESTION: 16

UC (Universal Containers) has 200 `Account` records. UC has a custom object called `Account` with a field called `Account Type`. The `Account Type` field is a picklist with the following values: `Individual`, `Business`, `Government`, and `Other`. The `Account Type` field is required. A user is creating a new `Account` record and has selected `Individual` for the `Account Type` field. The user is also required to enter a value for the `Account Type` field. Which two actions can the user take to complete the record? (Select two.)

- A. Click the `Save` button.
- B. Click the `Cancel` button.
- C. Click the `Save and New` button.
